

YOUR PARTNER TO IMPLEMENT SOFT MOBILITY SOLUTIONS INTO YOUR ORGANIZATION!

Are you looking to implement a turnkey Mobility Solution to add valuable service to your workplace and mitigate your environmental impact?

Our all-in solution is based on 3 main components:

- Rental of electric bikes, e-steps and cargo bikes to be selected according to your needs from our wide range of vehicles.
- All necessary services to keep vehicles in good working order (maintenance, repair, insurance, and 24/7 assistance).
- Our mobile application to book, lock and return vehicles; to manage user access, parking area and terms of use; to enable us to assist your employee, organize maintenance and provide statistics in a convenient way.

In addition, we offer tailor-made services such as bike branding, delivery of accessories, digitalization of existing bikes and set up of parking areas.
